FEEDBACK FROM OUR CLIENTS

A2T Camping is based on roomy canvas tents (made in Arusha) with steel frames (not backpack tents!), with lots of ventilation screening on all four sides (flaps can cover these if you want, or the weather requires it). But the key to comfort are the sturdy tent cots, equipped with foam pads and excellent sleeping bags (cleaned after each safari), which get you up off the hard ground at the level of the night breezes flowing through the screens. **Robert & Robin**

The camping accommodations were excellent. The tent, bedding, facilities, were all very clean and comfortable. We loved the experience. **Kim & Jeff**

Another thing that we were so pleasantly surprised by was the food and the cook. Our cook was Nasibu - a great guy. He very quickly caught on to what the kids liked to eat and made sure that every night there was cucumber, tomato and bell pepper salad. **Stacey & Kevin**

Places 2 Go

LAKE MANYARA NATIONAL PARK: Picture lush woodlands, and the beaches of the Rift Valley Lake where giraffe, elephants and wildebeest enjoy an endless supply of water. You will often see these enormous animals in the water, sitting, sipping or just cooling off. Due to this unique habitat, there are thousands of bird species able to live in the forests and the ultimate site-seeing prize of this area is the tree-climbing lion.

NGORONGORO CRATER: Today you will descend to the floor of the crater: The Ngorongoro Crater is a sunken volcano, or better termed the largest intact volcanic caldera. The view from the crest of the crater will provide you with an expansive sight of the entire crater, which spans 260 square Km, and the rim is 2,400m high. This sunken volcano is home to a permanent array of wildlife and it is home to the "Big 5": the lion, leopard, buffalo, rhino and elephant. The Black Rhino is rare to spot, but be sure that if one group sees one, word will travel and you will have a great chance at this beautiful creature.

SERENGETI NATIONAL PARK: The Serengeti is the setting for so many wildlife documentaries with good reason. Imagine endless land of acacia trees, baobab trees, African grasses, wildebeest, zebras, gazelles, giraffe and amazing weather. The Serengeti boasts staggering numbers of giraffe, eland, zebra, wildebeest, lions, elephants, Thompson's gazelles, buffalo, 500 species of birds, Topi, and Grant's gazelle.

TARANGIRE NATIONAL PARK: This park is home to an abundance of elephants. You will see these enormous creatures travel in families and you surely will not miss the extraordinary care they take of their young. The elephants tend to travel in packs and in the same paths as they have taken year after year. When they see your trucks coming closer they will gather around their young to protect them and lead them on their way.

Things 2 Do

OLDUVAI GORGE (the “Cradle of Mankind”): take a brief visit the modest but interesting museum and if you have strong interests you can then take a special archaeological tour guided by the Department of Antiquities personnel with a visit to the remarkable Shifting Sands. The expanded visit costs \$25 extra per group. Duration: 30 min to 2-3 hours.

SUNRISE SERENGETI: Early bird pre-breakfast game drive. Wake up early to watch the sun rise over the Serengeti – don't miss it. A sunrise game drive is available virtually any safari day since your vehicle is yours to use as you please.

6. The price for the rescheduled itinerary will likely change. The only price change will be a direct result of any changes in park fees or accommodation prices. (Accommodation prices normally go up moderately each year, but also the rescheduled itinerary may fall in a different season which may increase or even decrease the price.)
7. Traveler must make payments on the itinerary as already agreed to in this contract with the exception that as soon as a decision is made to rebook, further payments (if not already due) do not need to be made until the re-booked itinerary payments are scheduled.
